Physician Relations Program

Rochester Regional Health has a broad spectrum of resources, a long history of collaborating with our physicians and advocating for patients, and a commitment to innovation.

Whether you're one of our employed physicians, or a valuable partner, we want to make sure you have quick, convenient access to the Rochester Regional resources you need to make your patients' lives better, easier and healthier. This referral guide is a directory of Rochester Regional in-network specialists to whom you can refer your patients. They are members of the Rochester Regional Medical and Dental Staff and are Tier One members of GRIPA. Please note, only the individual providers listed are employed or in-network. There may be others within the same practice that are not in this group, and are therefore out of network.

We are continually working to improve the referral process and make sure physicians are aware of new developments. Your dedicated physician liaison's contact information is included in this guide. Please be sure to contact your liaison if there's any way we can ease your access to services within the system, or if you have questions on services, physicians and facilities available to you.

Meet Your Physician Liaisons

The Rochester Regional Health Physician Relations team works to build meaningful relationships with referring physicians by understanding physicians' needs and addressing concerns.

Your dedicated physician liaison works to provide you and your staff with convenient access to the professionals, services and facilities affiliated with Rochester Regional Health. Whether you need to find the right resource for a patient or require assistance with resolving an issue, your liaison can help. As someone with extensive knowledge of the resources of Rochester Regional, your physician liaison can:

- Provide information and updates about our programs, services and facilities
- Coordinate meet and greets with Rochester Regional's specialists
- Assist in obtaining follow-up information on your patients
- Help solve any problems or address concerns with the patient referral process
- Meet with new Primary Care providers to apprise them of some of the ways we can help provide patients with the best care possible
- Share news and information about available CMEs and other upcoming events
- Explain the benefits of in-system referrals, such as continuum of care and shared patient notes
- Facilitate meetings with Rochester Regional leadership to discuss potential acquisitions or succession planning

Your physician liaison will be in touch with you regularly to see if there's anything she can do to help you and your staff. If you have any questions or concerns in the meantime, please do not hesitate to contact her.

We look forward to a continued relationship with you as we work to make patients' lives better, easier and healthier!

ElderONE is Rochester Regional Health's Program of All-Inclusive Care for the Elderly (PACE), which also qualifies as a New York State managed long-term care program.

This program allows seniors who are 55 or older and are chronically-ill or disabled to enjoy living in the comfort of their homes while receiving professional, coordinated, long-term care services.

ElderOne serves individuals who are:

- Age 55 or older
- In need of community-based, long-term care for more than 120 days
- Able to live safely in the community with ElderOne assistance
- Dual eligible in Medicare and Medicaid, or Medicaid eligible (unless paying privately)

Services Include:

- A dedicated, interdisciplinary team including physicians, nurses, physical therapists, occupational therapists, recreational therapists, social workers, home health aides, dietitians, and more
- Transportation to and from program-related medical and support services
- Medication management

Home Care

Home Care services available in Monroe, Wayne, Cayuga, Livingston, Ontario, Seneca, Yates and Schuyler counties

P 585.214.1000 or 800.724.1410

Rochester Regional Health Home Care provides Skilled Nursing, Physical/Occupational Therapy, Speech Language Pathology and Social Work Services to help patients and families manage disease safely in the home while reducing readmissions.

Advanced Specialty Programs

- **Diabetes Care**

For patients ranging from frequently hospitalized to newly diagnosed. Expert care of wounds and foot ulcers, medication teaching and management of poorly controlled disease. Nutrition counseling and physical therapy services support best outcomes.

- **Cardiopulmonary Care**

Comprehensive program with highly skilled specialized cardiac team providing assessment and disease management for patients with heart failure, s/p LVAD or other cardiac surgery, COPD, pneumonia and other conditions. Daily monitoring through Telehealth allows for close monitoring of symptoms.

- **Wound/Ostomy/Continence Care**

Utilizing protocols that monitor the entire wound healing process, our nurses are certified wound care specialists and provide the most effective methods available. Advanced wound care products, VAC and digital photography are used for communication with providers.

- **Maternal and Child Health**

State-of-the-art technologies and specialized treatments by highly skilled and experienced nurses provide the highest quality of care for infants and children, new moms and high risk pregnancies. Pediatric Palliative Care supports families and kids with life threatening diagnoses to alleviate physical, emotional and/or spiritual suffering.

- **Geriatric Care**

Our nurses, therapists and social work team collaborate to provide specialized and acute care, allowing patients to remain in the home and return to their baseline status. Remote monitoring, home infusion and 24/7 triage nursing help to reduce readmissions.

Home Care

Rehabilitative Services

- **Physical Therapy**

Assessment and treatment of impaired physical function, home safety and balance training, post-surgical care, deconditioning and decline in baseline function, cardiopulmonary rehab, wheel chair assessments and assistive equipment needs.

- **Occupational Therapy**

Develop a treatment plan to promote independence by improving skills required for activities of daily living. Dressing, feeding, self-care, assessment of safety awareness in the home and energy conservation techniques. Asks for and provide adaptive equipment.

- **Speech Therapy**

Diagnose and treat speech language, social communication, cognitive communication, and swallowing disorders. Treating disorders of breathing and speaking.

Neurological Rehab

Specialized rehab program involving physical, occupational and speech therapists with advanced education and certifications in practice. Collaboration with Unity Acute Rehab for advanced training.

- Cerebral vascular disease
- Parkinson's disease
- Traumatic brain injury
- Multiple Sclerosis

Home Infusion & Pharmacy Services

Rochester Regional Health Home Infusion Pharmacy staff are on call 24/7 to assist patients, families and physicians. We provide infusible and injectable drugs to patients receiving home care and also to those who are not. We take referrals directly from the hospital or from the provider's office and will deliver drug and supplies. Our intake staff will manage all aspects of insurance coverage.

Pharmacy services offered:

- Pharmacokinetic profiles and trended lab results
- Drug choice and dosing recommendations
- Compounding for specific patient needs
- Ongoing clinical monitoring
- Formulation of recommendations based on clinical and laboratory assessment
- Communication with providers and home care teams
- All medications/supplies are delivered

Home Care

Palliative Care

Our palliative care team works in partnership with providers to coordinate care for patients with serious, life threatening illness. Palliative care is appropriate at any stage of illness and unlike hospice, can be delivered alongside restorative measures such as dialysis and chemotherapy. Our goal is to prevent and ease suffering while improving quality of life for patients and their families.

- Symptom management of pain, nausea, breathlessness, fatigue, anxiety, depression
- Decrease or eliminate of frequent visits to the hospital and ER
- Family and patient education about the illness and options for care
- Anticipate future needs while assisting with difficult medical decisions

Contact

Ways to make a referral:

- Call our Customer Care Center 24/7 at 585.214.1000 or 800.724.1410
- Electronically through Care Connect

Hospice Care

Hospice Available in Monroe, Seneca and Wayne counties

Home and Community Based Hospice Care

Hospice is specialized end-of-life care that allows patients and families to spend their final time together with comfort and dignity, receiving services focused on sustaining quality of life. Hospice works to minimize pain and manage the symptoms of advanced, life threatening illnesses. In addition to physical well-being, hospice also addresses spiritual, emotional and psychological concerns of patients and their loved ones. We are prepared to help patients and providers manage urgent situations and are available by phone 24/7.

Hildebrandt Hospice Care Center

Rochester Regional Health Hospice Care operates this 11 bed hospice center on the campus of Unity Hospital. For patients and their families, this facility embodies the hospice promise of comfort and dignity at the end of life using experienced staff and volunteers. If it becomes too difficult to assure comfort where a patient lives, the physician may arrange to admit the patient to the Hildebrandt Hospice Care Center.

Services Include:

- Nursing care for pain and symptom management
- 24-hour emergency on-call support for patients and families
- Education for primary caregivers
- Home Health Aides for personal care as needed
- Counseling and referrals for resources from medical social workers
- Pharmacy services for equipment, supplies and medications
- Inpatient care for short-term acute symptom management and respite
- Consultation with a dietitian
- Volunteer assistance
- Pastoral care and emotional support
- Bereavement services for family and caregivers

Contact

Common Conditions and Treatments

- Superficial venous disease/varicose veins - minimally invasive vein treatments
- Pelvic venous disease and varicoceles - gonadal vein embolization
- Uterine fibroids - uterine fibroid embolization
- Prostate enlargement - embolization for BPH with lower urinary tract symptoms
- Peripheral arterial disease and critical limb ischemia - angioplasty and stenting
- Minimally invasive cancer treatment - Y90 radioembolization, chemoembolization, and ablation
- Arterial bleeding - embolization to treat GI bleeding, aortic endoleaks, postpartum hemorrhage
- Deep vein thrombosis - DVT management, thrombolysis, and IVC filter placement/retrieval
- Spine fractures - kyphoplasty
- Portal vein hypertension - TIPS and BRTO to treat refractory varices and ascites
- Aneurysms - coil embolization repair of visceral aneurysms
- Pulmonary embolism - clot extraction and thrombolysis
- Arteriovenous malformations (AVMs) - embolization
- Kidney tumors - ablation and embolization
- GI and hepatobiliary disease - cholangiography and percutaneous feeding access
- Pain management - CT-guided and US-guided nerve blocks and neurolysis
- Arthritis - genicular artery embolization for painful osteoarthritis
