

Finger Lakes Urology Institute
DISCHARGE INSTRUCTIONS

SURGICAL PROCEDURE: Collagen Injection

INSTRUCTIONS:

1) No strenuous activity

ie. = no exercise, no lifting, shoveling or sports, no sex, no lawn mowing,
no riding on a lawn mower. _____ walking is encouraged.

2) You may or may not have a catheter in your bladder when you leave hospital. It is not uncommon after this procedure to be unable to void. If you do have a catheter, you will be instructed on how to empty the bag, and switch from leg bag to an overnight drainage bag.

3) Take your antibiotics as prescribed.

4) Do not pull on or apply traction to the catheter (tube). It will be removed in the doctors office.

4) Continue to take your routine medication unless your doctor has advised you differently.

5) Call your urologist for and appointment. He will want to see you in 1 week.

CALL YOUR DOCTOR:

If you develop fever or chills.

If the catheter stops draining.

If you develop bleeding or increased redness at the incision or if it opens up.
